HOW TO SECURE YOUR RESIDENCE IN SLOVAKIA AFTER THE UK'S DEPARTURE FROM THE EU

If you are a UK national or a UK national family member living in Slovakia, please be informed about the two following key dates and obligations:

■ 31 December 2020

If you are lawfully residing in Slovakia before 31 December 2020 and continue to live here after this date, you can continue enjoying your rights in Slovakia as broadly as you could before the UK's exit from the EU.

As a UK national, to lawfully reside in Slovakia means that you must fall into one of the following categories:

- You are employed in Slovakia;
- You are a self-employed person in Slovakia;
- You are studying in Slovakia and are financially self-sufficient;
- You are financially self-sufficient and have health insurance in Slovakia;
- You are looking for work in Slovakia;
- You are a family member of a UK national or of a Union citizen who satisfies one of the above conditions and whom you are accompanying or joining.

As a UK national family member, to lawfully reside in Slovakia means that the UK national you are accompanying or joining satisfies one of the above conditions.

If you have lawfully resided in Slovakia continuously for more than five years, you no longer have to fall into one of these categories and satisfy the above conditions.

■ 30 June 2021

You should apply for a new (non-EU) Residence Card at your respective Foreign Police Department before 30 June 2021. You should do so even if you are already registered as resident and hold an EU Residence Card. You may be fined for not doing so.

Your new (non-EU) status will allow you to continue to live, work and perform other activities in the territory of Slovakia, in the same way as you could before the UK left the EU.

This information card has been sent to you by the Bureau of Border and Foreign Police. IOM does not hold your personal data.
